SPANISH BROADCASTING SYSTEM, INC. AND SUBSIDIARIES NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Basis of Presentation

The unaudited condensed consolidated financial statements include the accounts of Spanish Broadcasting System, Inc. and its subsidiaries (the Company, we, us, our or SBS). All intercompany balances and transactions have been eliminated in consolidation. The accompanying unaudited condensed consolidated financial statements as of March 31, 2023, and December 31, 2022 and for the three months ended March 31, 2023 and 2022 have been prepared in accordance with U.S. generally accepted accounting principles ("GAAP") for interim financial information. They do not include all information and notes required by U.S. GAAP for complete financial statements. These unaudited condensed consolidated financial statements should be read in conjunction with our consolidated financial statements included in our Year End Financial Reporting Package for the fiscal year ended December 31, 2022. In the opinion of management, the accompanying unaudited condensed consolidated financial statements contain all adjustments, which are all of a normal and recurring nature, necessary for a fair presentation of the results of the interim periods. Additionally, we evaluated subsequent events after the balance sheet date of March 31, 2023 through the financial statements' issuance date. The results of operations for the three months ended March 31, 2023 are not necessarily indicative of the results for the entire year ending December 31, 2023 or for any future interim or annual periods.

The preparation of consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Significant items subject to such estimates and assumptions include the allowance for doubtful accounts, the realization of deferred tax assets, the useful lives and future cash flows used for testing the recoverability of property and equipment, the recoverability of Federal Communications Commission (the "FCC") broadcasting licenses, and goodwill, the recoverability of right-of-use assets, the fair value of Level 2 financial instruments, the assessment as to whether it is reasonably certain that we will exercise our options to extend lease terms when available, the present value of lease payments used to calculate our lease liabilities and related right-of-use assets which includes the use of estimated incremental borrowing rate ("IBR"), contingencies and litigation. These estimates and assumptions are based on management's best judgments. Management evaluates its estimates and assumptions on an ongoing basis using historical experience and other factors, including the current economic environment, which management believes to be reasonable under the circumstances. Management adjusts such estimates and assumptions as facts and circumstances dictate. Illiquid credit markets, volatile equity markets and reductions in some advertising spending have combined to increase the uncertainty inherent in such estimates and assumptions. Actual results could differ from these estimates.

The accompanying unaudited condensed consolidated financial statements as of March 31, 2023, and December 31, 2022 and for the three months ended March 31, 2023 and 2022 reflect data on the discontinued operations of our television segment, as applicable. See Note 9 for additional details on the pending sale of our television segment and its classification as discontinued operations.

2. Revenue

In accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 606, revenue is recognized when a customer obtains control of promised services. The amount of revenue recognized and reported reflects the consideration to which the Company expects to be entitled to receive in exchange for these services and entitled under the contract. Substantially all deferred revenue is recognized within twelve months of the payment date. To achieve this core principle, the Company applies the following five steps:

- 1) Identify the contract with a customer,
- 2) Identify the performance obligations in the contract,
- 3) Determine the transaction price,
- 4) Allocate the transaction price to performance obligations in the contract, and
- 5) Recognize revenue when or as the Company satisfies a performance obligation.

Disaggregation of Revenue

The following table summarizes revenue from contracts with customers for the three months ended March 31, 2023 and 2022 (in thousands):

	Three Months Ended March 31,						
	2023		2022				
Local, national, digital and network	\$ 31,738	\$	31,341				
Special events	5,898		9,350				
Barter	968		1,405				
Other	198		242				
Gross revenue	\$ 38,802	\$	42,338				
Less: Agency commissions	4,255		4,307				
Net revenue	\$ 34,547	\$	38,031				

Nature of Products and Services

(a) Local, national, digital and network advertising

Local and digital revenues generally consist of advertising airtime sold in a station's local market, the Company's La Musica application or its websites either directly to the advertiser or through an advertiser's agency. Local revenue includes local spot sales, integrated sales, sponsorship sales and paid programming (or infomercials). National revenue generally consists of advertising airtime sold to agencies purchasing advertising for multiple markets. National sales are generally facilitated by an outside national representation firm, which serves as an agent in these transactions. Revenues from national advertisers are presented as net of agency commissions as this is the amount that the Company expects to be entitled to receive in exchange for these services and entitled to under the contract. Network revenue generally consists of advertising airtime sold on the AIRE Radio Networks platform by network sales staff.

A contract for local, national, digital and network advertising exists only at the time commercial substance is present. For each contract, the Company considers the promise to air or display advertisements, each of which is distinct, to be the identified performance obligation. The price as specified on a customer purchase order is considered the standalone selling price as it is an observable input which depicts the price as if sold to a similar customer in similar circumstances. Revenue is recognized when control is transferred to the customer (i.e., when the Company's performance obligation is satisfied), which typically occurs as an advertisement airs or appears.

(b) Special events

Special events revenue is generated from ticket sales and licensing agreements, as well as through profit-sharing arrangements for producing or co-producing live concerts and events promoted by radio and television stations.

In addition to ticket sales and licensing agreements, the Company enters into profit-sharing arrangements to produce or coproduce live concerts and events with partners which may also purchase various production services from the company. These contracts include multiple promises that the Company evaluates to determine if the promises are separate performance obligations. Once the Company determines the performance obligations and the transaction price, including estimating the amount of variable consideration, the Company then allocates the transaction price to each performance obligation in the contract based on a relative stand-alone selling price method or using the variable consideration allocation exception if the required criteria are met. The corresponding revenues are recognized as the related performance obligations are satisfied, which may occur over time (i.e., term of agreement) or at a point in time (i.e., event completion). To determine if revenue should be reported gross as principal or net as agent, the Company considers indicators such as if it is the party primarily responsible for fulfillment, has inventory risk, and has discretion in establishing price to determine control. When management determines it controls an event, it acts as the principal and records revenue gross. When management determines it does not control an event, it is acting as an agent and records revenue net.

(c) Barter advertising

Barter sales agreements are primarily used to reduce cash paid for operating costs and expenses by exchanging advertising airtime for goods or services.

A contract for barter advertising exists only at the time commercial substance is present. For each contract, the Company considers the promise to air or display advertisements, each of which is distinct, to be the identified performance obligation. The price as specified on a counterparty's purchase order is considered the standalone selling price as it is an observable input which depicts the price as if sold to a similar customer in similar circumstances. Revenue is recognized when control is transferred to the customer (i.e., when the Company's performance obligation is satisfied), which typically occurs as an advertisement airs or displays.

For the three months ended March 31, 2023 and 2022, barter revenue of \$1.0 million and \$1.4 million was offset by barter expense of \$0.8 million and \$0.9 million, respectively.

(d) Other revenue

Other revenue consists primarily of ancillary revenue such as rental income from renting available tower space or sub-channels and various other non-broadcast related revenues. Other revenues related to renting tower space are recognized in accordance with ASC 842 - Leases.

(e) Agency commissions

Agency commissions are calculated based on a stated percentage applied to gross billing revenue. Advertisers remit the gross billing amount to the agency and the agency remits gross billings less their commission to the Company when the advertisement is not placed directly by the advertiser.

Significant Judgments

As part of its consideration of the existence of contracts, the Company evaluates certain factors including the customer's ability to pay (or credit risk). Advertising contracts are for one year or less. In determining the transaction price, the Company evaluates whether the price is subject to refund or adjustment to determine the net consideration to which the Company expects to be entitled. In determining whether control has transferred, the Company considers if there is a present right to payment and legal title, along with risks and rewards of ownership having transferred to the customer.

Contract Balances

During the three months ended March 31, 2023, there were \$0.5 million of local, national, digital and network revenue recognized that were included in the unearned revenue balances at the beginning of the period.

During the three months ended March 31, 2023, there were \$0.2 million of special events revenue recognized that were included in the unearned balances at the beginning of the period.

Barter and other revenue recognized during the three months ended March 31, 2023 that were included in unearned revenue balances at the beginning of the period were not significant.

On March 31, 2023, there were \$1.9 million of variable consideration in the form of agency-based volume discounts accrued as contract liabilities within accrued expenses as compared to \$1.5 million for the year-ended December 31, 2022. Variable consideration in the form of agency-based volume discounts of \$0.4 million were recognized and recorded as contract liabilities within accrued expenses during the three months ended March 31, 2023.

Transaction Price Allocated to the Remaining Performance Obligation

The Company has elected to use the optional exemption in ASC 606-10-50-14 with regard to disclosing balances associated with remaining performance obligations. Revenue expected to be recognized in any future year related to remaining performance obligations, excluding revenue pertaining to contracts that have an original expected duration of one year or less, contracts where revenue is recognized as invoiced and contracts with variable consideration related to undelivered performance obligations, is not material.

Assets Recognized from the Costs to Obtain a Contract with a Customer

ASC 606 requires that the Company capitalize incremental costs of obtaining a contract such as sales commissions. The guidance provides certain practical expedients that limit this requirement. The Company has elected to use the practical expedient in ASC 340-40-25-4 which allows us to recognize the incremental cost of obtaining a contract, such as sales commissions paid to our employees, as an expense when incurred if the amortization period of the asset that the entity otherwise would have recognized is one year or less.

3. Basic and Diluted Net Loss Per Common Share

In calculating net loss per share, the Company follows the two-class method, which distinguishes between classes of securities based on the proportionate participation rights of each security type in the Company's undistributed net loss. The Company's Class A common stock, Class B common stock and Series C convertible preferred stock share equally on an as-converted basis with respect to net loss.

Basic net loss per common share is computed by dividing net loss available to common stockholders by the weighted average number of shares of common stock and convertible preferred stock outstanding for each period presented. Diluted net loss per common share is computed by giving effect to common stock equivalents as if they were outstanding for the entire period. The following table summarizes the income (loss) from continuing and discontinued operations and net loss applicable to common stockholders and the income (loss) from continuing and discontinued operations and net loss per common share for the three months ended March 31, 2023 and 2022 (in thousands, except per share data):

	Three Months Ended March 31,								
		2023		2022					
	Class A	Class B	Series C	Class A	Class B	Series C			
Basic and Diluted net loss per share:									
Numerator									
Allocation of undistributed losses from continuing operations	\$ (2,469)	\$ (1,009)	\$ (328)	\$ (428)	\$ (199)	\$ (65)			
Allocation of undistributed earnings (losses) from discontinued operations	\$ 787	321	104	(607)	(282)	(91)			
Allocation of undistributed net losses	\$ (1,683)	(688)	(223)	(1,035)	(481)	(156)			
Denominator									
Number of shares used in per share computation (as converted)	5,730	2,340	760	5,042	2,340	760			
Basic and Diluted loss per share from continuing operations	\$ (0.43)	\$ (0.43)	\$ (0.43)	\$ (0.09)	\$ (0.09)	\$ (0.09)			
Basic and Diluted income (loss) per share from discontinued									
operations	\$ 0.14	\$ 0.14	\$ 0.14	\$ (0.12)	\$ (0.12)	\$ (0.12)			
Basic and Diluted net loss per share	\$ (0.29)	\$ (0.29)	\$ (0.29)	\$ (0.21)	\$ (0.21)	\$ (0.21)			
Common stock equivalents excluded from calculation of diluted net loss per share as the effect would have been anti-dilutive:	509			335					

4. Stockholders' Equity

The changes in stockholder's equity for the three months ended March 31, 2023 and 2022 are as follows:

	Three Months Ended				
	 March 31,				
	2023	2022			
Beginning balance	\$ 18,095	\$	22,659		
Net loss	(2,594)		(1,672)		
Stock-based compensation	 62		62		
Ending balance	\$ 15,563	\$	21,049		

5. Commitments and Contingencies

We are subject to certain legal proceedings and/or claims that have arisen in the ordinary course of business and have not been fully adjudicated or settled. In our opinion, we do not have potential liability related to any current legal proceedings and/or claims that would have a material adverse effect on our financial condition or operating results. However, the results of legal proceedings and/or claims cannot be predicted with certainty. Should we fail to prevail in any of these legal matters and/or claims or should all these legal matters and/or claims be resolved against us in the same reporting period, the operating results of a particular reporting period could be materially adversely affected.

6. \$310 Million Senior Secured Notes Due 2026 and Revolving Credit Facility

a) \$ 310 million Senior Secured Notes Due 2026

On February 17, 2021, the Company completed its private offering of \$310.0 million aggregate principal amount of its 9.75% Senior Secured Notes due 2026 (the "Notes"). Interest on the Notes accrues at the rate of 9.75% per annum and is payable semi-annually in arrears on March 1 and September 1 of each year, beginning on September 1, 2021. The Notes will mature on March 1, 2026, unless redeemed or repurchased earlier. Prior to September 1, 2023, the Company will be subject to certain premiums, as defined in the Indenture, for certain optional redemption of some or all of the Notes. Further, at any time on or prior to September 1, 2023, we may redeem up to 40% of the aggregate principal amount of the Notes with the proceeds of certain equity offerings. In addition, we may redeem the Notes with the proceeds of certain assets sales. If we experience certain change of control events, noteholders may require us to repurchase all or part of their Notes at 101% of the sum of the principal amount of the Notes, plus any other interest that is accrued and unpaid to, but not including, the repurchase date.

The Notes will rank equally with all our existing and future senior indebtedness and senior to all our existing and future subordinated indebtedness. The Notes and related guarantees will be structurally subordinated to all existing and future indebtedness and other liabilities (including trade payables but excluding intercompany liabilities) of each of our non-guarantor subsidiaries. The Notes and the related guarantees will be secured on a first-priority basis (other than with respect to certain ABL Priority Collateral securing a New Revolving Credit Facility) by a security interest in certain of our and the guarantors' existing and future tangible and intangible assets, subject to certain excluded assets. The Notes and related guarantees will be effectively senior to all of ours and our guarantors' existing and future unsecured indebtedness to the extent of the value of the collateral.

The Indenture contains covenants that, among other things, limit the ability of the Company and its restricted subsidiaries to (i) incur additional debt and issue certain preferred stock, (ii) pay certain dividends on, repurchase or make distributions in respect of their capital stock or make other restricted payments, (iii) make certain investments, (iv) sell or exchange certain assets, (v) enter into transactions with affiliates, (vi) create certain liens and (vii) consolidate, merge or transfer all or substantially all of their assets. These covenants are subject to several exceptions, limitations and qualifications as set forth in the Indenture. The Indenture does not contain any financial covenants.

The Indenture also contains customary events of default including, but not limited to, nonpayment, breach of covenants, and payment or acceleration defaults in certain other indebtedness of the Company or certain of its subsidiaries. Upon an event of default,

the holders of not less than 25% in principal amount of the then-outstanding Notes may declare the Notes immediately due and payable, or in certain circumstances, the Notes automatically will become due and immediately payable. At March 31, 2023, the Company had no events of default under the Indenture.

b) Revolving Credit Facility

Concurrently with the completion of the Notes offering, we entered a senior secured asset-based revolving credit facility (the "Revolver"), providing for borrowings of up to \$15.0 million subject to compliance with a "borrowing base." We intend to use borrowings under the Revolver, if necessary, to finance working capital needs and other general corporate purposes. As of March 31, 2023, the availability under the Revolver was \$15.0 million.

At the Company's election, the interest rate on borrowings under the Revolver will bear interest at: (a) so long as the Leverage Fall Away Trigger shall not then be continuing, either (i) LIBOR plus a margin of 2.75% (stepping down to 2.50% upon Availability exceeding 33% and 2.25% upon Availability exceeding 66%) or (ii) the base rate plus a margin of 1.75% (stepping down to 1.50% upon Availability exceeding 33% and 1.25% upon Availability exceeding 66%) and (b) following the occurrence and during the continuation of a Leverage Fall Away Trigger, either (i) LIBOR plus a margin of 4.00% (stepping down to 3.75% upon the net leverage ratio reaching 5.0x) or (ii) the base rate plus a margin of 3.00% (stepping down to 2.75% upon the net leverage ratio reaching 5.0x). As of March 31, 2023, the interest rate on the Revolver was either (i) LIBOR plus a margin of 2.25% or (ii) the base rate plus a margin of 1.25%.

All obligations under the Revolver are secured by (a) a first priority lien on all accounts receivable, cash, deposit accounts, and proceeds thereof held by the Company and the guarantors (the "ABL Priority Collateral") and (b) a first lien, pari passu with the holders of the Notes, on all other assets held by the Company and the guarantors. Letters of credit issued under the agreement are required to be collateralized with cash in certain circumstances.

7. Income Taxes

The Company follows the guidance in ASC 270, "Interim Reporting" and ASC 740 "Income Taxes", whereby the Company utilizes the expected annual effective tax rate in determining its income tax provisions for the interim periods. In assessing the realizability of the deferred tax assets, management considers whether it is more likely than not that some portion or the entire deferred tax assets will not be realized. The ultimate realization of the deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning strategies in making this assessment.

Our income tax expense differs from the statutory federal tax rate of 21% and related statutory state tax rates primarily due to nondeductible expenses, Puerto Rico withholding taxes and a recording of a valuation allowance on certain tax attributes that are expected to be limited as a result of the Section 382 Limitation that occurred during 2021.

U.S. Federal jurisdiction and the jurisdictions of Florida, New York, New York City, California, Illinois, Texas and Puerto Rico are the major tax jurisdictions where we file income tax returns. The tax years that remain subject to assessment of additional liabilities by the federal, state and local tax authorities are 2019 through 2021. The tax years that remain subject to assessment of additional liabilities by the Puerto Rico tax authority are 2014 through 2021.

Based on our evaluation, we have concluded that there are no material uncertain tax positions requiring recognition in our unaudited condensed consolidated financial statements as of March 31, 2023.

8. Fair Value of Financial Instruments

Cash and cash equivalents, receivables, as well as accounts payable and accrued expenses, and other current liabilities, as reflected in the unaudited condensed consolidated financial statements, approximate fair value because of the short-term maturity of these instruments. The estimated fair value of our other long-term debt instruments approximate their carrying amounts as the interest rates approximate our current borrowing rate for similar debt instruments of comparable maturity, or have variable interest rates.

Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instrument. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

The fair value of the outstanding Notes is estimated using market quotes from a major financial institution taking into consideration the most recent activity and are considered Level 2 measurements within the fair value hierarchy.

The estimated fair value of our financial instruments is as follows:

		March 3	March 31, 2023		31, 2022
	Fair Value	Carrying	Fair	Carrying	Fair
Description	Hierarchy	Amount	Value	Amount	Value
9.75% senior secured notes due 2026 (Note 6)	Level 2	\$ 310.0	\$ 211.1	\$ 310.0	\$ 178.7

9. Sale of Television Assets (Assets Held for Sale & Discontinued Operations)

On February 9, 2023, the Company entered into various asset and real property purchase agreements (together the "Purchase Agreements") to sell substantially all its television and certain real estate assets (together the "Purchased Assets") which comprise the Company's television operations known as MegaTV, serving the United States of America and Puerto Rico, to Voz Media, Inc. Pursuant to the Purchase Agreements, the Purchased Assets include: licenses, permits and authorizations issued by the FCC; programming content, equipment, leases and contracts used in or related to the operation of MegaTV; and certain real properties located in Miami, Florida and Puerto Rico as part of the transaction.

The Purchase Agreements aggregate to \$64.0 million of total cash consideration, as follows.

- i. Asset Purchase Agreement to sell WSBS(TV) and WSBS(CD) in Miami, Florida and the MegaTV television network for consideration in the amount of \$19.0 million. In addition, Voz Media, Inc. will buy \$7.0 million of prepaid advertising from the Company and its affiliates to promote Voz's newly acquired television business during the 4 years following the closing;
- ii. Asset Purchase Agreement to sell WTCV(TV), WVEO(TV) and WVOZ(TV) in Puerto Rico for consideration in the amount of \$10.0 million;
- iii. Real Property Purchase and Sale Agreement to sell certain real property in Miami, Florida for consideration in the amount of \$22.0 million; and
- iv. Real Property Purchase and Sale Agreement to sell certain real property in Puerto Rico for consideration in the amount of \$6.0 million.

The Purchase Agreements are not contingent on financing and, at closing, Voz Media will pay the remaining balances, net of a \$3.8 million non-refundable deposit, with immediately available funds. As it relates to the prepaid advertising that will be bought by Voz Media, such \$7.0 million will be paid to the Company as follows: \$5.0 million at closing and \$2.0 million by the first anniversary of the closing.

The Purchase Agreements contain representations, warranties, covenants, closing conditions, termination rights, and other provisions customary in asset sale transactions in the broadcast television industry, including that the transaction is subject to the prior approval of the FCC for which the initial grants have since been approved. The Company is currently awaiting Final Orders from

the FCC, which we expect will become available during late second quarter or early third quarter of 2023. Once the FCC's Final Orders are deemed rendered and all closing conditions are met, the Company expects to close the transaction within five (5) business days, unless otherwise agreed to by the parties. Although there can be no assurance that this sale will be completed, the Company expects to recognize a gain, net of closing costs and taxes, on the disposal of assets upon closing.

In accordance with FASB ASC Topic 360-10-45-9, Long-Lived Assets Classified as Held for Sale, management determined that the pending sale of its television and certain real estate assets met the held for sale criteria as of the balance sheet date of this Financial Reporting Package.

The table below represents a summary of the assets and liabilities classified as held for sale as of March 31, 2023 on the Company's Unaudited Condensed Consolidated Balance Sheet.

	March 31, 2023		
Assets			
Property and equipment, net	\$ 14,113		
FCC broadcasting licenses	16,149		
Operating lease right-of-use-assets	921		
Assets held for sale	\$ 31,183		
Liabilities			
Operating lease liabilities	\$ 69		
Operating lease liabilities, net of current portion	1,018		
Liabilities held for sale	\$ 1,087		

Additionally, the Company invested \$0.1 million and \$0.2 million in capital expenditures during the three months ended March 31, 2023 and 2022, respectively. Capital expenditures incurred during the three months ended March 31, 2023 are included in assets held for sale for the period ended March 31, 2023, listed above.

Once assets are classified as held for sale, management is required to evaluate if under ASC Topic 205-20-45, Discontinued Operations, the disposal of a component of an entity shall be reported in discontinued operations. Management determined that the disposal represents a strategic shift that will have a major effect on operations and financial results, at the balance sheet date, and that the results of the Television segment shall be reported as discontinued operations. The operational and financial results related to the held for sale assets of the Television segment, which include the real estate assets and production facility located in Miami, Florida, are classified as discontinued operations in the current and prior year periods in the Unaudited Condensed Consolidated Statements of Operations.

The table below represents the amounts classified as discontinued operations during the three months ended March 31, 2023 and 2022 on the Company's Unaudited Condensed Consolidated Statements of Operations.

	Three Months Ended March 31,			
		2023		2022
Net revenue from discontinued operations	\$	1,792	\$	2,365
Operating expenses from discontinued operations:				
Operating expenses		3,234		3,527
Depreciation and amortization		112		328
Gain on the disposal of assets		_		(10)
Operating loss from discontinued operations		(1,554)		(1,480)
Other expenses from discontinued operations:				
Interest expense		(6)		_
Pre-tax loss from discontinued operations		(1,560)		(1,480)
Income tax benefit		(2,772)		(500)
Income (loss) from discontinued operartions	\$	1,212	\$	(980)

10. Subsequent Event - Acquisition of FM Radio Station

On April 3, 2023, Spanish Broadcasting System SouthWest, Inc. and SBS Houston Licensing, Inc., subsidiaries of the Company (collectively, "SBS SouthWest"), entered into an asset purchase agreement (the "Purchase Agreement") to acquire KROI(FM), a FM radio broadcast station (the "Radio Station") serving the Houston, Texas radio market, from Radio One Licenses, LLC and Radio One of Texas II, LLC (collectively, "Radio One"). Pursuant to the Purchase Agreement, Radio One, has agreed to convey certain assets, including licenses, permits and authorizations issued by the FCC, tangible personal property and certain leases used in or related to the operation of the Radio Station to SBS SouthWest.

The purchase price is equal to \$7.5 million plus or minus certain customary prorations and adjustments. On April 5, 2023, pursuant to the Purchase Agreement and the related escrow agreement, SBS SouthWest deposited approximately \$0.4 million into an escrow account. At closing, the Company will pay the remaining balance, net of the escrowed funds, with immediately available funds and instruct the escrow agent to release the escrow deposit to Radio One.

The Purchase Agreement contains customary representations, warranties, covenants and closing conditions, including FCC regulatory approval, and the transaction is expected to close during the third or fourth quarter of 2023.

Management's Discussion and Analysis of Financial Condition and Results of Operations

General Overview

We are a leading Spanish-language media and entertainment company with radio operations, together with live concerts and events, mobile, digital, and interactive media platforms, which reach the growing U.S. Hispanic population, including Puerto Rico. We produce and distribute original Spanish-language content, including radio programs, music, and live entertainment through our multimedia platforms.

We own and operate radio stations located in some of the top Hispanic markets in the United States: Los Angeles, New York, Puerto Rico, Chicago, Miami, San Francisco, Orlando, and Tampa. The Los Angeles and New York markets have the largest and second largest Hispanic populations and are also the largest and second largest radio markets in the United States measured by advertising revenue, respectively. The U.S. Hispanic population is diverse, consisting of numerous identifiable ethnic groups from many different countries of origin, and each ethnic group has its own musical and cultural heritage. Since the music, culture, customs, and Spanish dialects vary from one radio market to another, we strive to maintain familiarity with the musical tastes and preferences of each of the various Hispanic ethnic groups in order to accommodate and monetize such diversity. We customize the programming format of each of our radio stations to capture a substantial share of the Hispanic audience and to match the local preferences of our target demographic audience in our respective markets. In addition to our owned and operated radio stations, we operate AIRE Radio Networks, which covers 95% of the coveted U.S. Hispanic market and reaches 15 million listeners in an average week. AIRE Radio Networks is comprised of top-rated stations and shows attracting a broad range of quality listeners allowing advertisers to efficiently reach their target audience. AIRE Radio Networks has over 290 affiliate radio stations serving 80 of the top 100 U.S. Hispanic markets, including 47 of the top 50 U.S. Hispanic markets.

As part of our operating business, we maintain multiple Spanish and bilingual websites, including www.lamusica.com, and various station websites that provide content related to Latin music, entertainment, news, and culture, as well as the LaMusica mobile application. The LaMusica mobile application is a music and entertainment video and audio application that programs an extensive series of short form videos, simultaneously live streams our radio stations, includes hundreds of curated playlists and has tools that enable users to personalize their mobile radio streaming experience. The new video enhancements to our mobile application significantly enhance the audience's engagement level and increase the reach of our mobile offering. We also provide digital marketing solutions through our pure-play digital marketing department, Digldea, and access to the digital realm where brands can explore a diverse range of engaging content, unlock valuable insights, and connect with our thriving podcast community through SBS Global Podcasts. In addition, we produce live concerts and events in the United States and Puerto Rico. Concerts generate revenue from ticket sales, sponsorship, and promotions, raise awareness of our brands in the surrounding communities and provide our advertising partners additional opportunities to reach their target audience.

Additionally, during the three months ended March 31, 2023, we determined that the pending sale of our television segment and related buildings met the criteria to be classified as held for sale and its operations as discontinued operations in the current and prior year.

Business Drivers and Financial Statement Presentation

The following discussion provides a brief description of certain key items that appear in our unaudited condensed consolidated financial statements and general business factors that impact these items.

Net Revenue Description and Factors

Our net revenue is primarily derived from the sale of advertising airtime to local, national and network advertisers. Net revenue is gross revenue less agency commissions, which are generally 15% of gross revenue.

• Local revenue generally consists of advertising airtime sold to local advertisers. Local revenue includes local spot sales, integrated sales, sponsorship sales and paid programming (or infomercials). Digital revenue generally consists of advertisements placed on the Company's LaMusica application or its digitally streamed stations. For the three months ended March 31, 2023 and 2022, local and digital revenue comprised 59% and 57% of our gross revenues, respectively.

National and network revenues generally consist of advertising airtime sold to agencies purchasing advertising for
multiple markets. National sales are generally facilitated by our outside national representation firm, which serves as our
agent in these transactions. Network sales consist of advertising airtime sold on our AIRE Radio Network platform by our
network sales staff. For the three months ended March 31, 2023 and 2022, national and network revenue comprised 22%
and 17% of our gross revenues, respectively.

Our net revenue is generally determined by the advertising rates that we are able to charge and the number of advertisements that we can broadcast without jeopardizing listenership/viewership levels. Each station broadcasts a predetermined number of advertisements per hour with the actual number depending upon the format of a particular station and any programming strategy we are utilizing to attract an audience. The number of advertisements we decide to broadcast hourly is intended to maximize the station's revenue without negatively impacting its audience listener/viewer levels. While there may be shifts from time to time in the number of advertisements broadcast during a particular time of the day, the total number of advertisements broadcast on a particular station generally does not vary significantly from year to year.

Our advertising rates are primarily based on the following factors:

- a station's audience share in the demographic groups targeted by advertisers which are measured by ratings agencies, primarily Nielsen;
- the number of stations, as well as other forms of media, in the market competing for the attention of the same demographic groups;
- the supply of, and demand for, advertising time; and
- the size of the market.

Our net revenue is also affected by general economic conditions, competition, and our ability to improve operations at our market clusters. Seasonal revenue fluctuations are also common in the broadcasting industry and are primarily due to variations in advertising expenditures by local and national advertisers. Our net revenue is typically the lowest in the first calendar quarter of the year.

In addition to advertising revenue, we also generate revenue from barter sales, special events revenue, and other revenue.

- Special events revenue. We generate special events revenue from ticket sales and licensing, as well as profit-sharing arrangements by producing or co-producing live concerts and events promoted by our radio stations. For the three months ended March 31, 2023 and 2022, special events revenue comprised 15% and 22% of our gross revenues respectively.
- Barter sales. We use barter sales agreements primarily to reduce cash paid for operating costs and expenses by exchanging advertising airtime for goods or services. However, we endeavor to minimize barter revenue in order to maximize cash revenue from our available airtime. For the three months ended March 31, 2023 and 2022, barter revenue comprised 3% of our gross revenues, respectively.
- Other revenue. We receive other ancillary revenue such as rental income from renting available tower space or subchannels and various other non-broadcast related revenues. For the three months ended March 31, 2023 and 2022, other revenue comprised 1% of our gross revenues, respectively.

Operating Expenses Description and Factors

Our operating expenses consist primarily of operating expenses and corporate expenses.

- Operating expenses include engineering, programming, selling, general and administrative expenses which are related to the creation, delivery, and cost of selling our programming content, as well as administrative costs associated with operating and managing our stations and divisions. These expenses include compensation and benefits for employees, transmitter-related expenses, originally produced content, on-air promotions, music license fees, commissions, rating services, advertising, barter expenses, facilities expenses, special events expenses, professional fees, insurance, allowance for doubtful accounts, affiliate station compensation and other expenses.
- Corporate expenses are related to the operations of our corporate offices and matters. These expenses include compensation and benefits for our corporate employees, professional fees, insurance, corporate facilities expenses, and other expenses.

We strive to control our operating expenses by centralizing certain functions at our corporate offices and consolidating certain functions in each of our market clusters. In our pursuit to control our operating expenses, we work closely with our local stations' management and vendors.

Comparison Analysis of the Operating Results for the Three Months Ended March 31, 2023 and 2022

The following summary table presents a comparison of our operating results for the three months ended March 31, 2023 and 2022. Various fluctuations illustrated in the table are discussed below. This section should be read in conjunction with our unaudited condensed consolidated financial statements and related notes.

	Three Months Ended March 31,				
	2023 2022				
Net revenue from continuing operations	\$	34,547	\$	38,031	
Operating expenses		27,730		26,375	
Corporate expenses		3,484		3,876	
Depreciation and amortization		561		465	
Loss on the disposal of assets		9		_	
Other operating expenses		335		_	
Operating income from continuing operations		2,428		7,315	
Other expenses:					
Interest expense		(8,078)		(8,223)	
Income tax benefit		(1,844)		(216)	
Loss from continuing operations before discontinued operations	5	(3,806)		(692)	
Income (loss) from discontinued operations, net of tax		1,212		(980)	
Net loss	\$	(2,594)	\$	(1,672)	

Overview

For the three months ended March 31, 2023, our operating results were impacted by our special events which had less show nights and lower ticket sales and event expenses. Our operating expenses were impacted by investments in our (i) recently acquired Orlando and Tampa start-up stations purchased on April 29, 2022, (ii) unique Spanish-language programming talent and content for our terrestrial and digital properties and (iii) digital infrastructure and capabilities, personnel, and offerings, such as our SBS Global Podcasts group and Digldea, our pure-play digital marketing department.

Net Revenue from Continuing Operations

The decrease in net revenue from continuing operations of \$3.5 million or 9% was driven by lower special events revenue, local and barter sales, partially offset by increases in national, network, and digital sales.

Operating Expenses

The increase in operating expenses of \$1.4 million or 5% was primarily due to an increase in compensation & benefits, allowance for doubtful accounts, music license fees, and transmitter rent, partially offset by a decrease in special events expenses.

Corporate Expenses

The decrease in corporate expenses of \$0.4 million or 10% was primarily due to decreases in compensation & benefits, travel & entertainment, and professional fees.

Operating Income from Continuing Operations

The decrease in operating income from continuing operations of \$4.9 million was primarily due to the decrease in net revenue and the increase in operating and other operating expenses, partially offset by the decrease in corporate expenses.

Interest Expense, net

The decrease in interest expense of \$0.1 million or 2% was related to other interest charges not related to our 9.75% Senior Secured Notes.

Income Tax Benefit

The increase in income tax benefit of \$1.6 million was primarily due to an increase in the annualized effective rate impact of the permanent book to tax adjustments compared to the prior year.

Loss from Continuing Operations Before Discontinued Operations

The increase in loss from continuing operations of \$3.1 million was primarily due to the decrease in operating income from continuing operations, partially offset by the increase in income tax benefit.

Income from Discontinued Operations

The increase in income from discontinued operations of \$2.2 million was primarily the due to an increase in income tax benefit and a decrease in operating expenses from discontinued operations, partially offset by a decrease in net revenue from discontinued operations.

Net Loss

The increase in net loss of \$0.9 million was primarily due to the decrease in operating income, partially offset by the increase in income tax benefit and the income from discontinued operations.

Liquidity and Capital Resources

The most important aspects of our liquidity and capital resources as of March 31, 2023 and, as of the date of this Quarterly Financial Reporting Package, are as follows:

- Our senior secured asset-based revolving credit facility provides for borrowings of up to \$15.0 million which is currently undrawn. We intend to use this to finance working capital needs and other general corporate purposes, as necessary.
- On February 9, 2023, the Company entered into various asset and real property purchase agreements to sell substantially all its television and certain real estate assets which comprise the Company's television operations known as MegaTV, serving the United States of America and Puerto Rico. The purchase agreements aggregate to \$64.0 million of total cash consideration which includes a prepaid advertising buy of \$7.0 million and will be paid to the Company as follows: \$5.0 million at closing and \$2.0 million by the first anniversary of the closing. The Company will receive the remaining balances, net of a \$3.8 million non-refundable deposit, from the purchaser, at closing with immediately available funds that are not contingent on financing.
- On April 3, 2023, the Company entered into an asset purchase agreement to acquire an FM radio broadcast station serving the Houston, Texas radio market. The purchase price is equal to \$7.5 million, and at closing the Company will pay the remaining balance, net of the approximately \$0.4 million of escrowed funds, with immediately available funds.

Although we have access to a \$15 million revolving credit facility, our primary source of liquidity is our current cash and our cash flows from operations. Our cash flows from operations are subject to factors impacting our customers and target audience, such as overall advertising demand, shifts in population, listenership and viewership, demographics, audience tastes and fluctuations in preferred advertising media.

Our strategy is to primarily utilize cash flows from operations to meet our ordinary operating obligations, as well as availability under the revolving credit facility (as needed). Assumptions which underlie management's beliefs with respect to operating activities include the following:

- we will continue to successfully implement our business strategy,
- we will use cash flows from operating activities to fund our operations and pay our expenses (including interest on the Notes), and
- we will not incur any material unforeseen liabilities, including but not limited to taxes, environmental liabilities, regulatory matters, or legal judgments.

We cannot assure you that these assumptions will be realized.

We have evaluated and will continue to evaluate strategic media acquisitions and/or dispositions and strive to expand our media content through distribution, programming, and affiliation agreements to achieve a significant presence with clusters of stations in the top U.S. Hispanic markets. We have engaged and will continue to discuss potential acquisitions and/or dispositions and expansion of our content through media outlets from time to time in the ordinary course of business.

Series C Preferred Stock

As of March 31, 2023, we had 380,000 shares of Series C preferred outstanding. Raúl Alarcón, our Chairman of the Board and Chief Executive Officer, is the beneficial owner of all the shares of Series C preferred stock which are convertible into 760,000 shares of Class A common stock, subject to certain adjustments.

Class A Common Stock

As of March 31, 2023, we had 6,209,446 shares of Class A common stock outstanding.

Class B Common Stock

As of March 31, 2023, we had 2,340,353 shares of Class B common stock outstanding, which have ten votes per share. Raúl Alarcón, our Chairman of the Board and Chief Executive Officer, has voting control over all but 350 shares of the Class B common stock.

Record Holders

As of March 31, 2023, there were approximately 98 record holders of our Class A common stock, three record holders of our Class B common stock and one record holder of our Series C preferred stock. These figures do not include an estimate of the indeterminate number of beneficial holders whose shares may be held of record by brokerage firms and clearing agencies. There is no established public trading market for our Class B common stock or our Series C preferred stock. Our Class B common stock is convertible into our Class A common stock on a share-for-share basis, and each share of the Series C preferred stock is convertible into two shares of Class A common stock.

Summary of Capital Resources

The following summary table presents a comparison of our capital resources for the three months ended March 31, 2023 and 2022, with respect to certain of our key measures affecting our liquidity. The changes set forth in the table are discussed below. This section should be read in conjunction with the unaudited condensed consolidated financial statements and accompanying notes.

	Three Mo			
	Marc	Change		
	2023 2022			\$
Capital expenditures	\$ 805	\$	710	95
Net cash flows provided by operating activities	\$ 207	\$	4,942	(4,735)
Net cash flows provided by (used in) investing activities	2,995		(1,877)	4,872
Net cash flows provided by (used in) financing activities	 _			_
Net increase in cash and cash equivalents	\$ 3,202	\$	3,065	

Capital Expenditures

Changes in capital expenditures were mostly attributable to an increase in leasehold improvements and studio & technical equipment in our Tampa market which were not present in the prior year.

Net Cash Flows Provided by Operating Activities

Changes in our net cash flows provided by operating activities were primarily a result of a decrease in working capital.

Net Cash Flows Provided by (Used in) Investing Activities

Changes in our net cash from investing activities are the result of having received a deposit towards the pending sale of our television segment and real estate assets in the current year and having made a deposit in the prior year towards the acquisition of our Orlando and Tampa stations.

Special Note Regarding Forward-Looking Statements

This Financial Reporting Package contains both historical and forward-looking statements. All statements other than statements of historical fact are, or may be deemed to be, forward-looking statements. Spanish Broadcasting System, Inc. and Subsidiaries intends such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995 and includes this statement for purposes of such safe harbor provisions. These forward-looking statements may involve known and unknown risks, uncertainties and other factors that may cause the Company's actual results and performance in future periods to be materially different from any future results or performance suggested by the forward-looking statements in this Financial Reporting Package. Although we believe the expectations reflected in such forward-looking statements are based upon reasonable assumptions, we can give no assurance that actual results will not differ materially from these expectations.

"Forward-looking" statements represent our expectations or beliefs, including, but not limited to, statements concerning our operations, economic performance, financial condition, growth and acquisition strategies, investments, and future operational plans. Without limiting the generality of the foregoing, words such as "may," "will," "expect," "believe," "anticipate," "intend," "forecast," "seek," "plan," "predict," "project," "could," "estimate," "might," "continue," "seeking" or the negative or other variations thereof or comparable terminology are intended to identify forward-looking statements. These statements, by their nature, involve substantial risks and uncertainties, certain of which are beyond our control. Additional risks and uncertainties that we are not aware of or that we currently deem immaterial also may impair our business. If any of the following risks actually occur, our business, financial condition and operating results could be materially adversely affected, and actual results may differ materially depending on a variety of important factors, including, but not limited to the following: we are highly leveraged and our substantial level of indebtedness could adversely affect our financial condition and prevent us from fulfilling our financial obligations; our substantial debt could make us more vulnerable to downturns in our business or in the general economy and increases in interest rates may limit our ability to withstand competitive pressures and may reduce our flexibility in responding to changing business and economic conditions; we have experienced net losses in the past and, to the extent that we experience net losses in the future, our ability to raise capital may be adversely affected; we face risks relating to our NOL carry-forwards since they became subject to limitations under Section 382 of the Internal Revenue Code of 1986 (IRC) due to the recapitalization of the Company in 2021; we face risks relating to our ability to realize the anticipated synergies and growth as a result of our recent start-up acquisitions in the Orlando and Tampa markets; our ability to consummate the sale of our Television assets to Voz Media, Inc. and our ability to consummate the purchase of the FM Radio Station in Houston within the contemplated timeline, or at all, and our ability to realize the anticipated benefits/synergies of those transactions; our industry is highly competitive, and we compete for advertising revenue with other broadcast stations, as well as other media, many operators of which have greater resources than we do, a large portion of our net revenue and operating income currently comes from our New York, Los Angeles and Miami markets, an economic downturn, increased competition or another significant negative event in any of these markets could reduce our revenues and results of operations more dramatically than other companies that do not depend as much on these markets; cancellations, reductions, delays and seasonality in advertising could adversely affect our net revenues; the success of our radio stations depends on the popularity and appeal of our content, which is difficult to predict; the loss of distribution agreements could materially adversely affect our results of operations; our business is affected by natural catastrophes that can disrupt our operations, by causing failure or destruction of satellites and transmitter facilities that we depend upon to distribute our programming; we may incur property and other losses that are not adequately covered by insurance; we must respond to rapid changes in technology, content creation, services and standards in order to remain competitive; cybersecurity risks could affect our operations and adversely affect our business; our business is dependent upon the performance of key employees, on-air talent and program hosts, cost increases in the retention of such employees and talent may adversely affect our profits; impairment of our goodwill and other intangible assets deemed to have indefinite useful lives can cause our net income or net loss to fluctuate significantly; piracy of our programming and other content, including digital and Internet piracy, may decrease revenue received from the exploitation of our programming and other content and adversely affect our business and profitability; damage to our brands or reputation could adversely affect our company; our business may be adversely affected by legal or governmental proceedings brought by or on behalf of our employees; Raúl Alarcón, the Chairman of our Board of Directors and Chief Executive Officer, has majority voting control of our common stock and 100% voting control of our Series C preferred stock and this control may discourage or influence certain types of transactions or strategic initiatives; our deregistered stock's liquidity can be adversely affected because we are no longer required to report to the SEC and our stock continues to trade on the OTC Pink Market; there may not be sufficient liquidity in the market for our securities for investors to sell their securities; the market price of our common stock may be volatile; changes in U.S. communications laws or other regulations may have an adverse effect on our business; proposed legislation would require radio broadcasters to pay increased royalties to record labels and recording artists; the FCC vigorously enforces its indecency and other program content rules against the broadcast industry, which could have a material adverse effect on our business; our businesses depend upon licenses issued by the FCC, and if any of those licenses were not renewed or we were to be out of compliance with FCC regulations and policies, our business may be materially impaired; there is significant uncertainty regarding the FCC's media ownership rules, and any changes to such rules could restrict our ability to acquire broadcast stations; we may be adversely affected by comprehensive tax reform; and new or changing federal, state or international privacy legislation or regulation could hinder the growth of our internet business. We do not have any obligation to publicly update any forward-looking statements to reflect subsequent events or circumstances, except as required by law.
